

PUBLIC MEETINGS NOTICE:

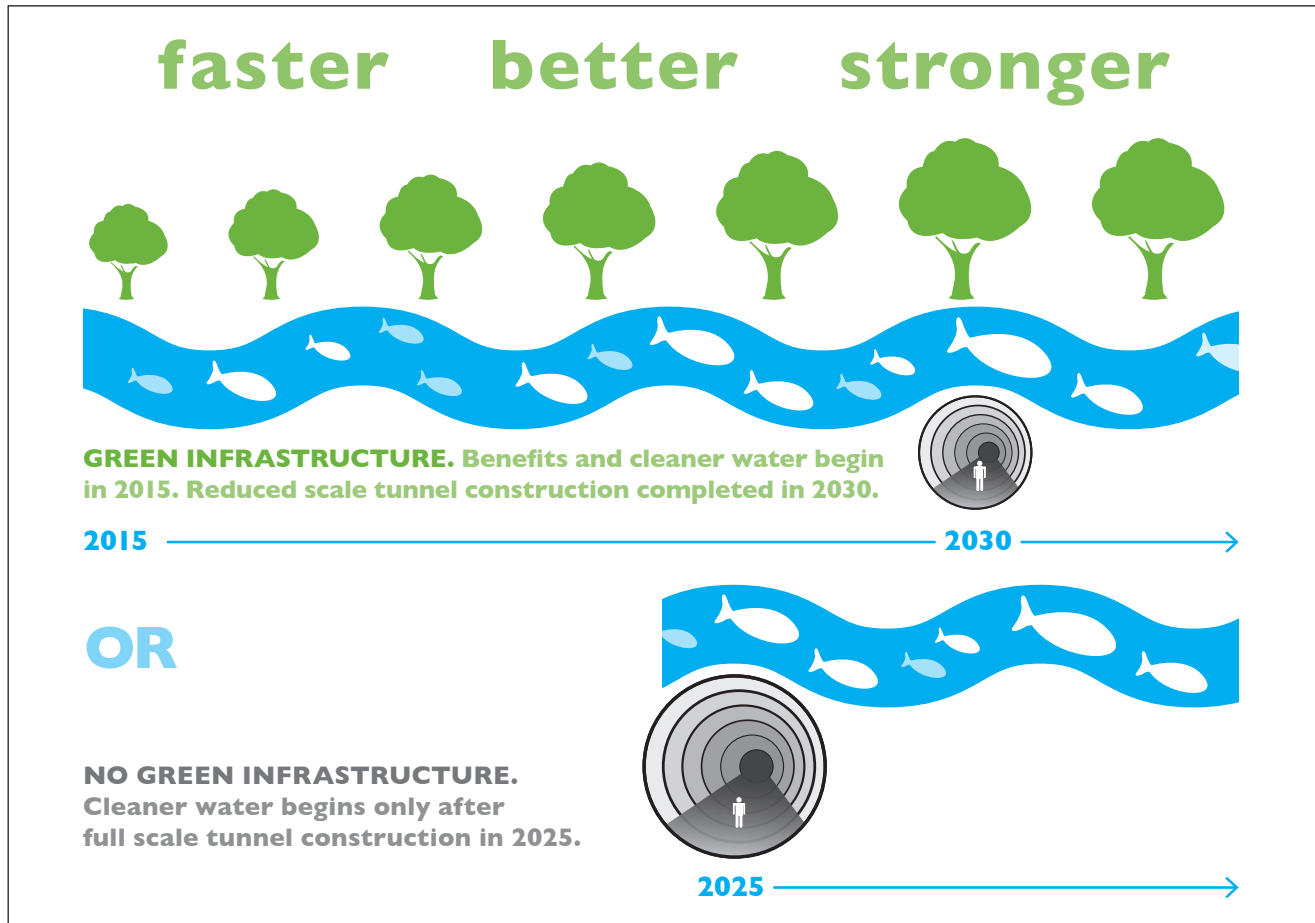

LEARN ABOUT DC WATER'S GREEN INFRASTRUCTURE PLAN

Tuesday, February 18, 2014 7:00-9:00pm

Georgetown Visitation Preparatory School
2nd Floor, Founder's Hall
1524 35th Street NW, Washington, DC

Thursday, February 20, 2014 7:00-9:00pm

Petworth Neighborhood Library
Basement Meeting Room
4200 Kansas Avenue NW, Washington, DC

LONG TERM CONTROL PLAN MODIFICATION.

faster

\$100 million investment in green infrastructure and sewer separation will provide water quality improvements for the Potomac River and Rock Creek beginning in 2015. The existing plan provides no benefits until 2025.

better

Implementing green technologies like rain gardens, green roofs and porous pavement will reduce the scale of the tunnels and provide additional benefits like reduced stormwater, improved air quality, and habitat enhancements.

stronger

Additional time to complete the Potomac River tunnel and implement green infrastructure will build stronger communities by reducing the scale and duration of construction, easing the burden on DC Water ratepayers who are financing the \$2.6 billion federally-mandated project, supporting local green jobs, and improving quality of life through additional green space.
